EXPERIENCE__

Experience Designer - Konrad

September 2021 - Present

Building scalable and responsive screens using a design system, Figma components, variants, and auto-layout. Designing a user journey map by compiling user research data. Participating in design ideation sessions with the client to determine design requirements.

UI/UX Designer - Ontario Ministry of Labour

January - April 2021

Led researches, surveys, and user interviews to generate user journey maps. Designed and produced high-fidelity interactive prototypes for a client-facing Employment Ontario web portal. Adhered to design guidelines for responsiveness and accessibility.

Product Designer - Hyivy Health Inc. (startup)

May - August 2020

Owned the design of their first mobile app, website, and 3D device prototype. Led the establishment of a vibrant brand identity and built brand style guidelines. Identified user pain-points and product goals through conducting user interviews and analyzing user feedback.

Web Designer & Full Stack Dev - [Kaiju Arcades](#)

January - April 2021

Developed and designed a functional website for an arcade reviewing platform similar to Yelp. Leveraged 3rd party API's, RESTful routing and implemented CRUD functionalities using Node, Express, and MongoDB.

COMMUNITY__

Co-lead - UW/UX

Oct 2020 - Present

Growing and guiding University of Waterloo's design community by organizing events, workshops, and designathons. Planned and conducted usability testing to iterate on designs for a club website.

Product Designer - UW Blueprint

September 2021 - Present

Collaborating cross-functionally within a team of designers, engineers, and product managers to build a magazine review platform for a non-profit organization, Canadian Children's Book Centre.

EDUCATION__

University of Waterloo - Graduating 2024

Candidate of Bachelor of applied science - Mechatronics Engineering
